Bevola Easydeck

Dual deck system that provides maximum efficiency

Bevola Easydeck

It has never been easier and faster to use the hold optimal, and therefore improve profits in the business.

Bevola has, in cooperation with carriers and builders, developed and patented EASY DECK system, a system that eliminates all the known difficulties, we know from other systems. With EASY DECK system it will be simple and quick to load properly. It is easy to increase profits at the same cost and the system therefore serves home quickly.

Benefits for BEVOLA EASY DECK:

- The system can be established and running in under 5 minutes.
- There is free entry with the truck from the side to the other level, for ex. long cargo.
- The system has no loose parts and is always available, in whole or in part.
- Adjustable in height, which allows multiple levels.
- The system is mounted in the cargo hold, so you save your back by not fetch and carry rods and beams, reduced absenteeism and attrition.
- Additional profit of the same costs for fuel, tires and wages.
- Increased competitiveness in relation to your competitors.
- Improving the environment, an important competitive advantage for your business.
- The mounting rails can be used for standard securing of cargo.

Technical data:

Weight:
 27 kg/ Pole - kit
 (Kit= beam, wall profiles, outriggers and rod riggers)

Cargo capacity:
 Up to 1500 kg/ section

Measurement (beam):
 200 mm in width
 100 mm in height
